-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

***Election/Restrictions***

Applicant's election without traverse in the reply filed on 7/13/06 is acknowledged.

***Claim Rejections - 35 USC § 112***

Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation that the "stop engages the door frame" is ambiguous because the door frame is not positively recited and this appears to be a method limitation and the current claims are not method claims.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 25 and 26 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either Dorma, Snyder et al '159 or Snyder et al '107.

The claims are comprised largely of functional, background, limitations that are not interpreted as significantly affecting the scope of the structural elements of the invention that are actually positively recited. These positively recited structural elements are: a housing and a stop thereon. Given this interpretation of the claims, each of the

Art Unit: 3634

above cited references provide housings and elements that either are stops (132 in Dorma) or could act as the broadly recited stop (13 in Snyder et al '159).

### **Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
